

## General Service Announcement Christmas Island and Cocos (Keeling) Islands

Ref: Rate Restoration

Singapore 30<sup>th</sup> July 2019

Dear Clients,

ASC Liner Services Pte Ltd has finished reviewing the operational expenses for shipping to Christmas Island and Cocos (Keeling) Islands over the last 12 months and since the last rate restoration was introduced.

The continued depreciation of the Australian Dollar against the US Dollar, rapidly rising bunker prices, port operational expenses such as pilotage, mooring/unmooring as well as delays incurred due to swell, public holidays and congestion have also been taken in to account.

Unfortunately, the shipping rates to the islands need to be adjusted, to ensure a continued regular shipping service to the islands.

Effective from MV Borkum voyage BK1905 the following increases will be implied:

AUD 845,- per TEU plus CAF/BAF AUD 665,- from/to Fremantle to Christmas Island

AUD 150,- per TEU plus CAF/BAF AUD 665,- from/to Fremantle to Cocos (Keeling) Islands

AUD 1025,- per TEU plus CAF/BAF AUD 665,- from/to Singapore to Christmas Island

AUD 330,- per TEU plus CAF/BAF AUD 665,- from/to Singapore to Cocos (Keeling) Islands

Shipping rates from/to Penang, Port Klang and all other ports will be based on Singapore rates plus actual transshipment rates at the time of shipment.

Best Regards

Lars Vetterlein

Liner Manager
